PROJECT REPORT

Case No: 6 | **Case Name:** Online Shopping Website

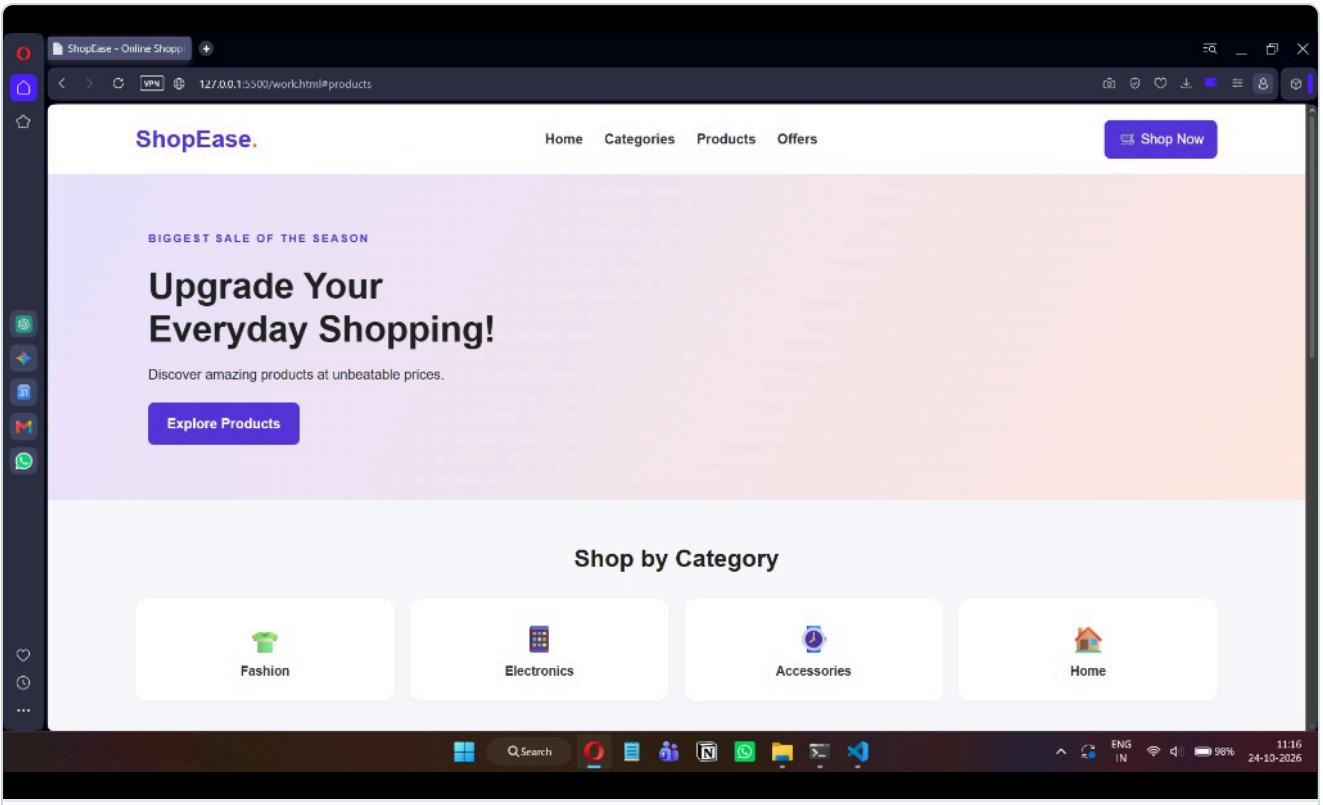

Project Name: ShopEase | **Technologies Used:** HTML, CSS

Explanation

I developed an online shopping website called **ShopEase** using HTML and CSS. The website features a clean, modern, and responsive design centered around a purple theme with structured product presentation.

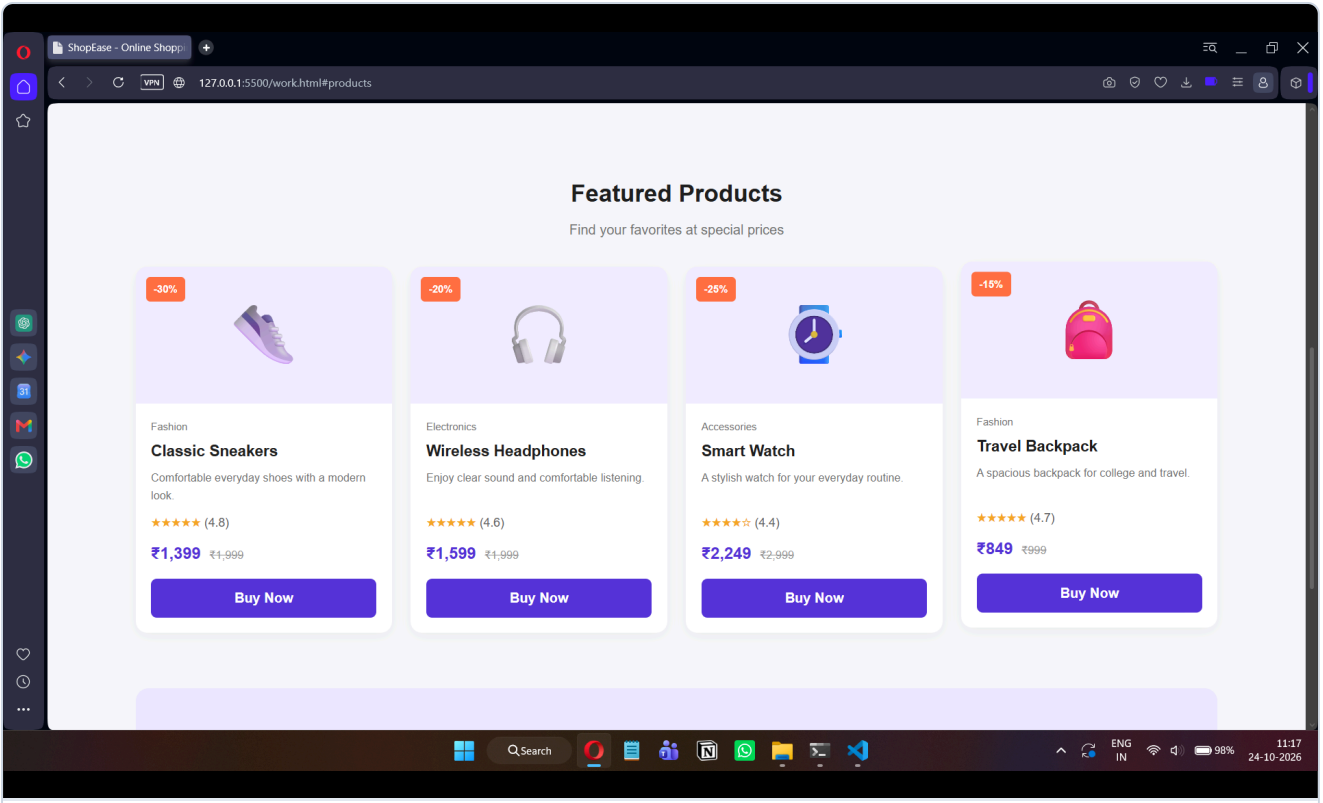

- **Navigation & Banner:** Includes a top navigation bar with Home, Categories, Products, Offers, and Shop Now options, alongside a seasonal sales banner.
- **Category Section:** Organizes products into Fashion, Electronics, Accessories, and Home products.
- **Featured Products:** Displays item cards with images, titles, pricing, ratings, discounts, and Buy Now buttons.
- **Objective:** To design a user-friendly e-commerce interface for seamless browsing and price comparison.

PROJECT REPORT

Case No: 8	**Case Name:** Online Food Ordering Website
Project Name: FoodieHub	**Technologies Used:** HTML, CSS, JavaScript

Explanation

I developed an online food ordering website called **FoodieHub** using HTML, CSS, and JavaScript. The website features a clean, modern, and responsive design centered around a warm amber and terracotta theme with structured food item presentation.

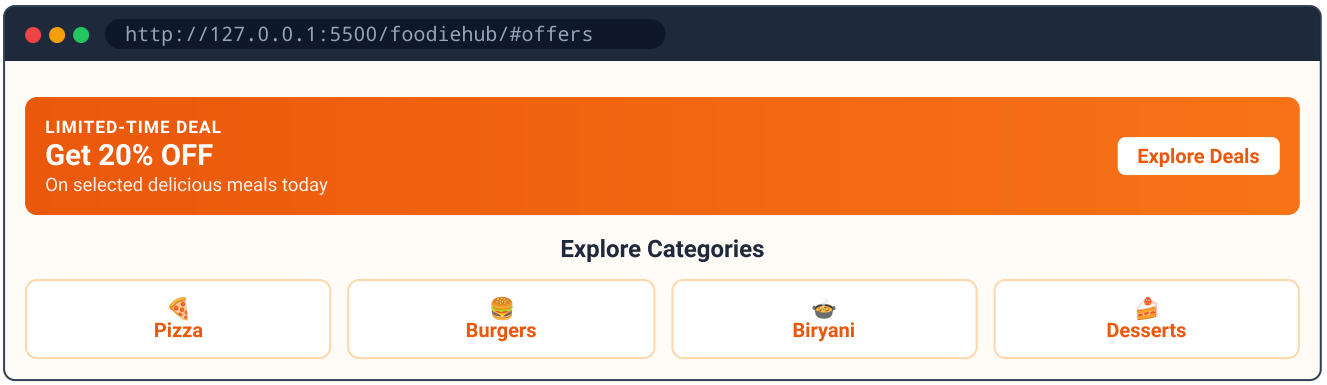

- **Navigation & Banner:** Includes a top navigation bar with Home, Menu, Offers, Reviews, and Order Food options, alongside a landing masthead featuring restaurant details.
- **Category Section:** Organizes food items into popular categories such as Pizza, Burgers, Biryani, and Desserts for intuitive browsing.
- **Featured Products:** Displays item cards with food images, titles, pricing, ratings, discounts, delivery info, and Order Now buttons.
- **Objective:** To design a user-friendly e-commerce food delivery interface for seamless browsing, menu exploration, and quick checkout.

Output 1: Homepage & Categories

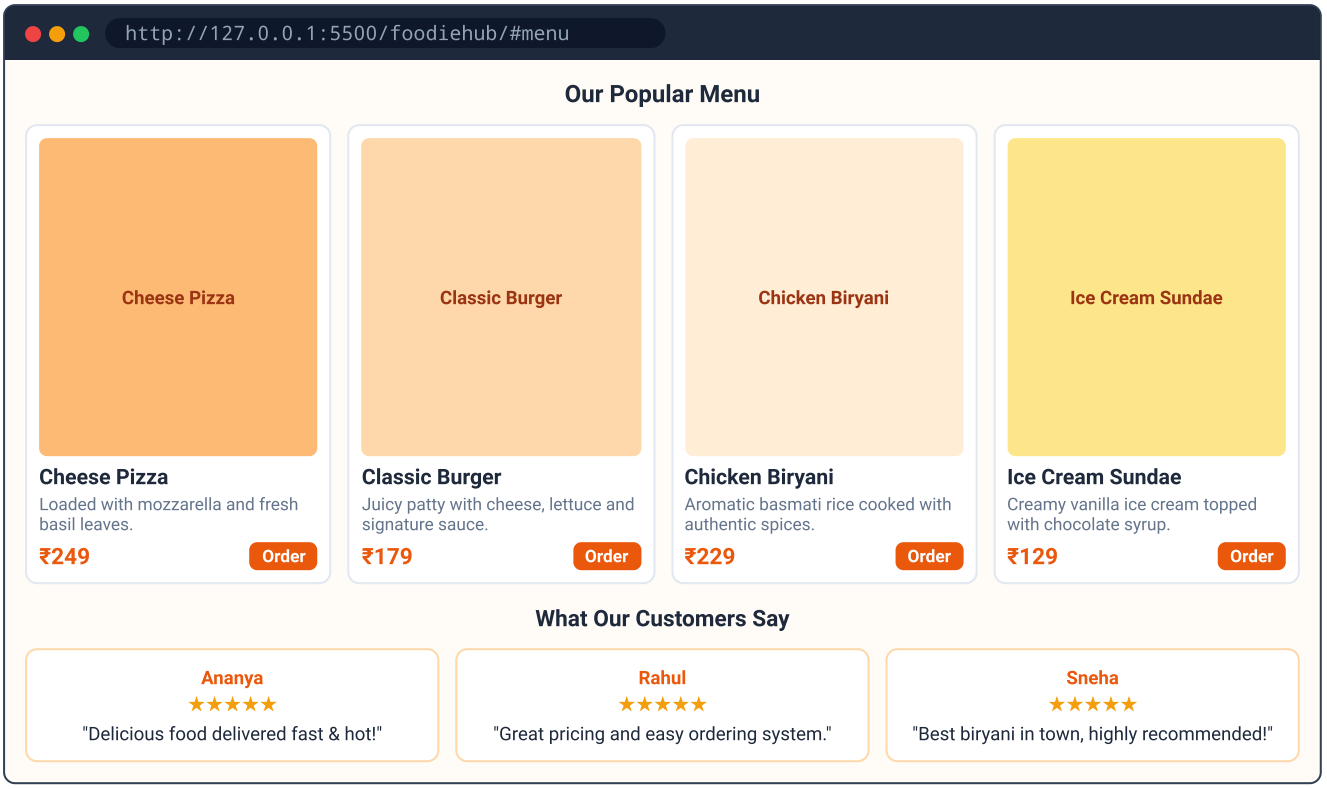

1st Screenshot - Header, Banner & Restaurant Selection

Output 2: Special Deals & Categories

2nd Screenshot - Limited-Time Deals & Food Categories

Output 3: Popular Menu Cards & Reviews

3rd Screenshot - Popular Menu Grid with Order Buttons & Reviews

CASE 18: THE GOLDEN SPOON

Restaurant & Cafe Website Interface Analysis & Visual Documentation

Project Name: The Golden Spoon

Tech Stack: HTML5 & CSS3

Design Palette: Warm Beige (#FDFBF7), Dark Olive (#3F4E38) & Gold

Key Features: Navigation, Food Menu, Ambiance, Chefs, Table Reservation

1. Website Masthead & Landing Hero Section

The homepage opens with a dark dining background featuring the tagline *"Good Food. Beautiful Moments."* accompanied by dual action buttons (*Explore Menu* and *Reserve a Table*) and a fixed navigation bar.

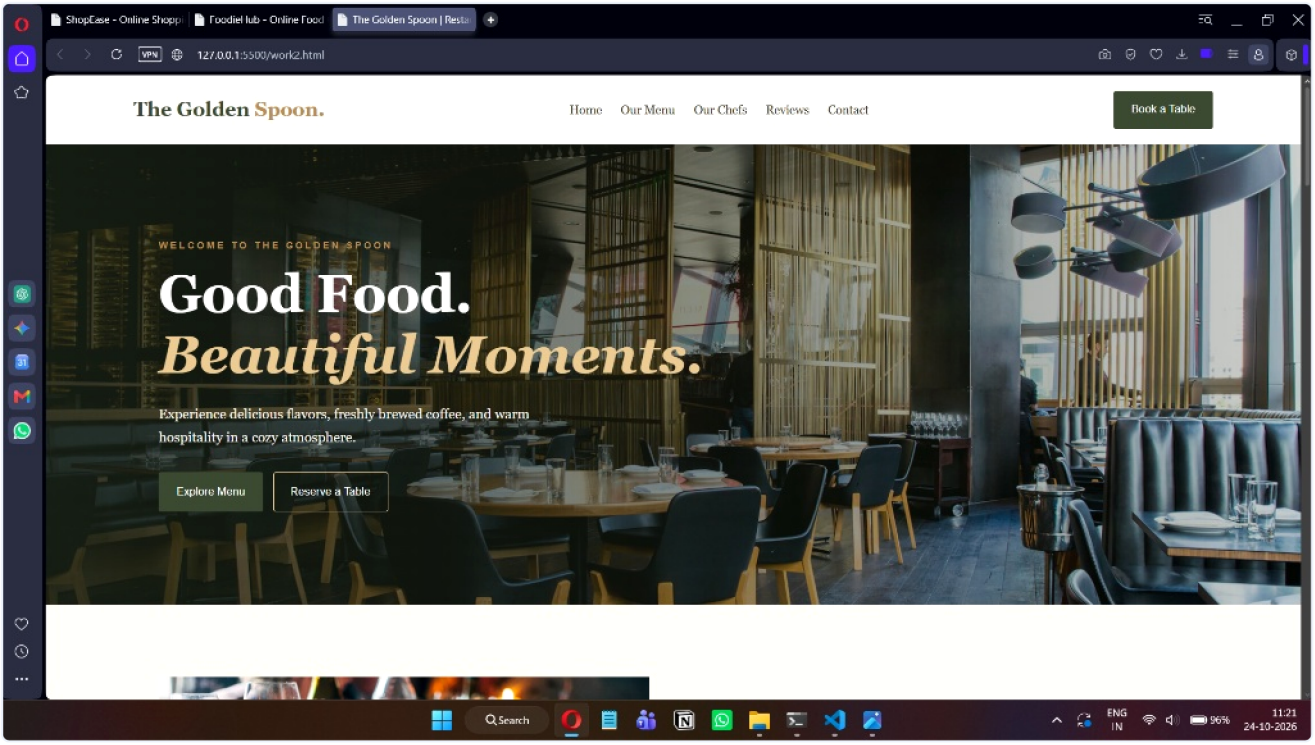

EXHIBIT 1.1 — Full-Width Landing Banner, Navigation Bar & Primary Call-to-Action Buttons

2. Brand Story & Introduction Section

Titled *"A Little Taste of Happiness"*, this section pairs an warm dining photograph with refined typography describing the fresh ingredients, coffee craftsmanship, and cozy atmosphere of The Golden Spoon.

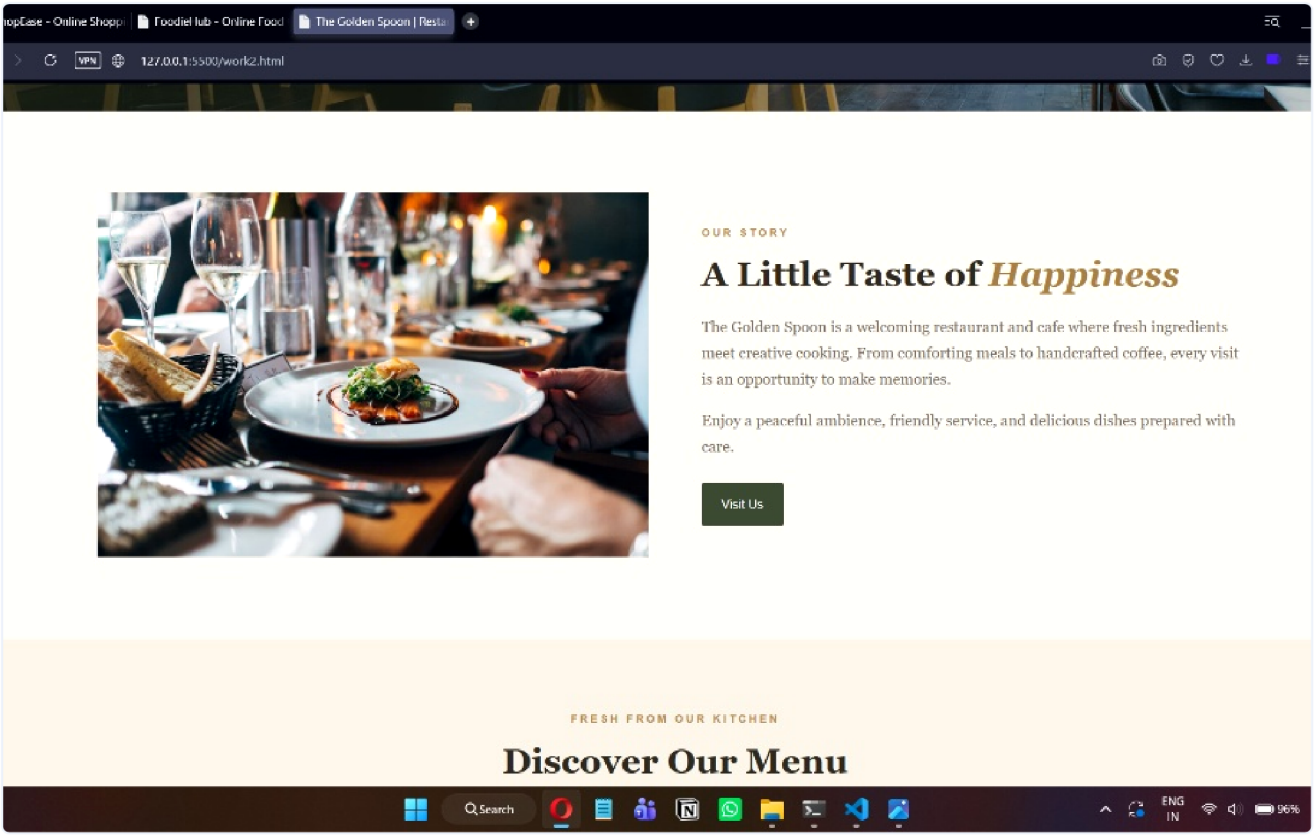

EXHIBIT 1.2 — Brand Story Showcase with High-Contrast Layout & "Visit Us" CTA

3. Interactive Food & Beverage Menu Cards

The *"Discover Our Menu"* section renders structured grid cards showing dish images, categories (Main Course, Healthy Picks, Cafe Special, Dessert), descriptions, and explicit prices in INR (₹149 – ₹299).

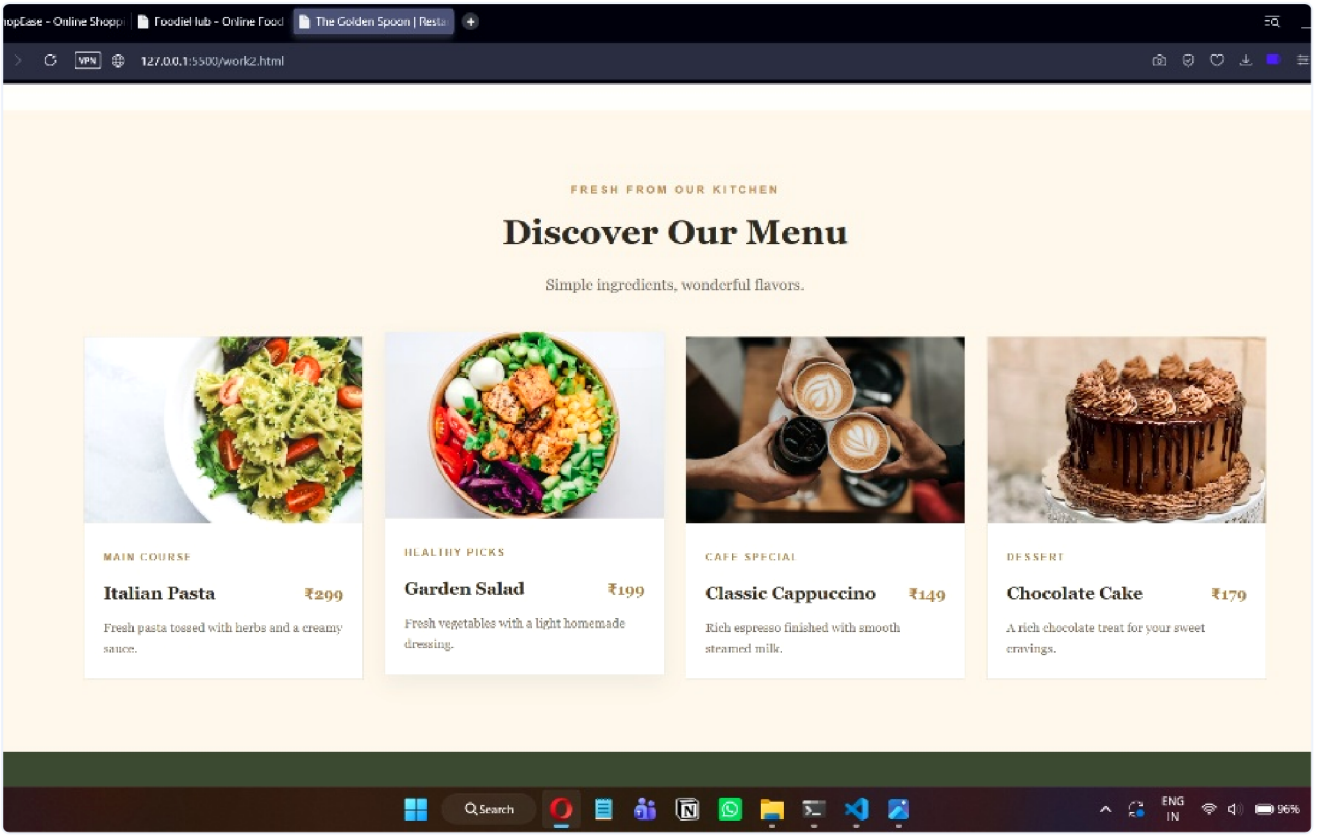

EXHIBIT 1.3 — Crisp Display of Menu Item Cards: Italian Pasta, Garden Salad, Cappuccino & Cake

4. Restaurant Ambiance & Interior Experience

Set against a rich deep-olive background, the *"Relax, Unwind & Enjoy"* section showcases the restaurant's interior aesthetics and invites guests to plan visits for family dinners or coffee dates.

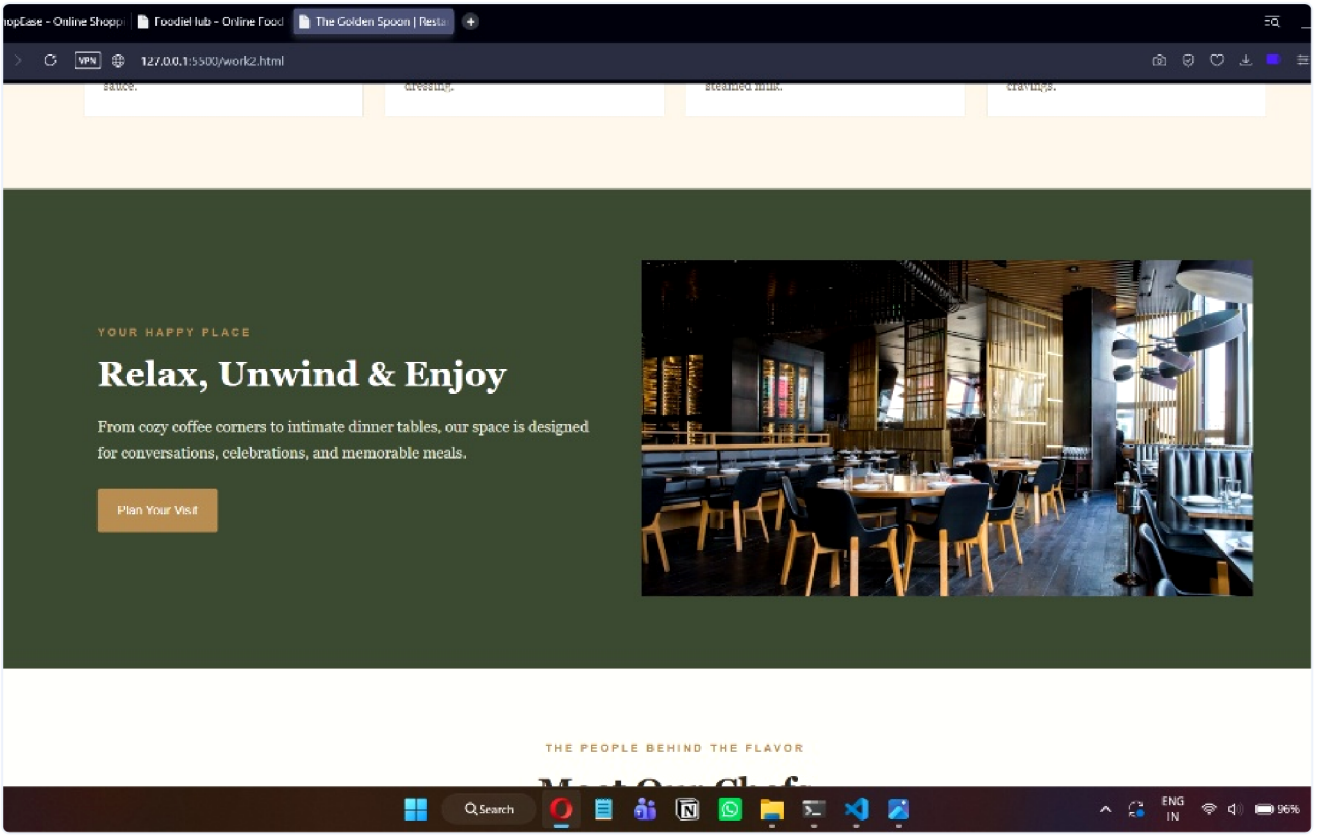

EXHIBIT 1.4 — Deep Olive Ambiance Banner with Restaurant Interior Photography

5. Culinary Team & Chef Profiles

The *"Meet Our Chefs"* section introduces the culinary team—Head Chef Arjun (Contemporary Cuisine), Pastry Chef Meera (Desserts & Baking), and Cafe Chef Rahul—instilling culinary trust.

EXHIBIT 1.5 — High-Definition Chef Profile Grid Highlighting Roles and Culinary Expertise

6. Guest Reviews & Social Proof

The *"What Our Guests Say"* section displays 5-star customer feedback in clean white cards, featuring quotes from patrons like Ananya, Rahul, and Priya praising the coffee, desserts, and staff.

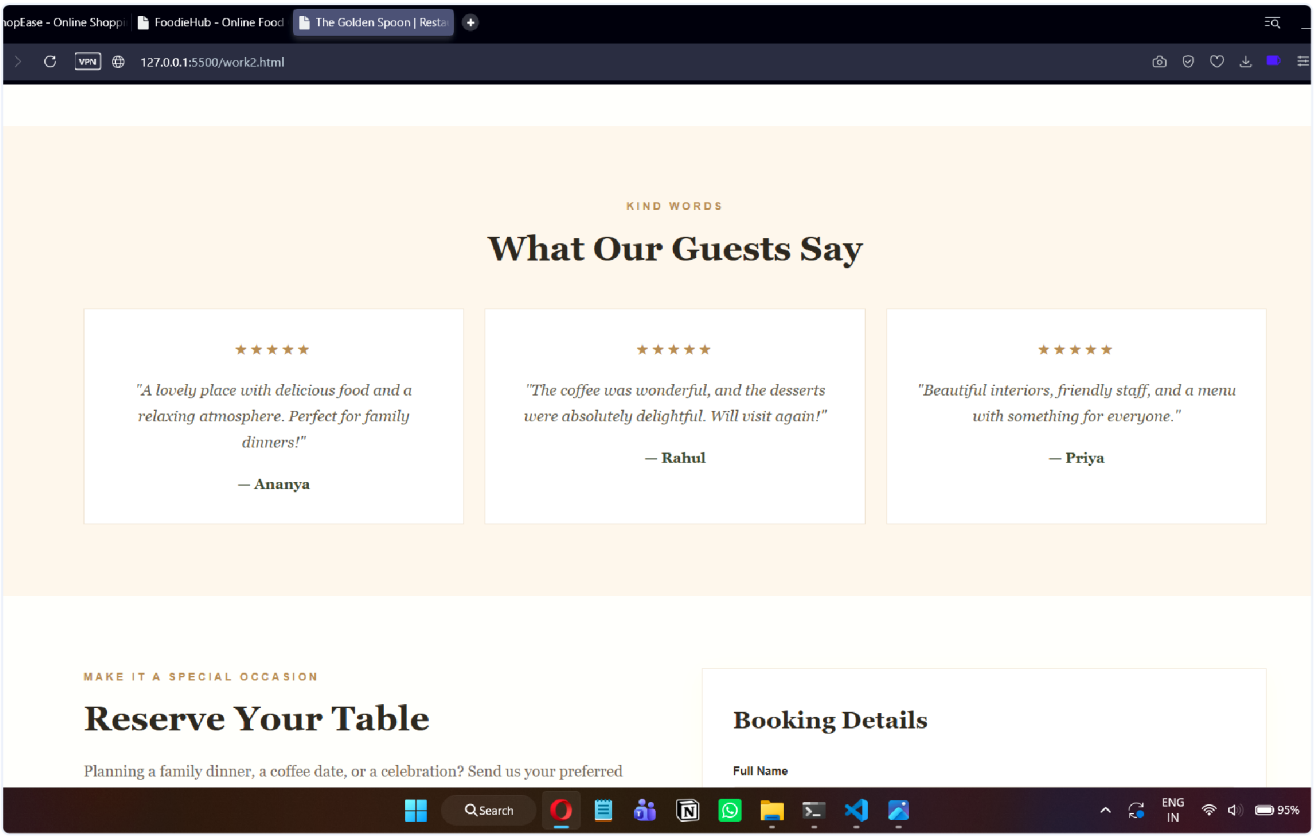

EXHIBIT 1.6 — 5-Star Guest Testimonial Cards Building Social Proof and Customer Trust

7. Online Table Reservation Form & Hours

The booking interface features input fields for Full Name, Email, Date, Time, Guest Count dropdown, and Special Requests, alongside opening hours and cafe contact address.

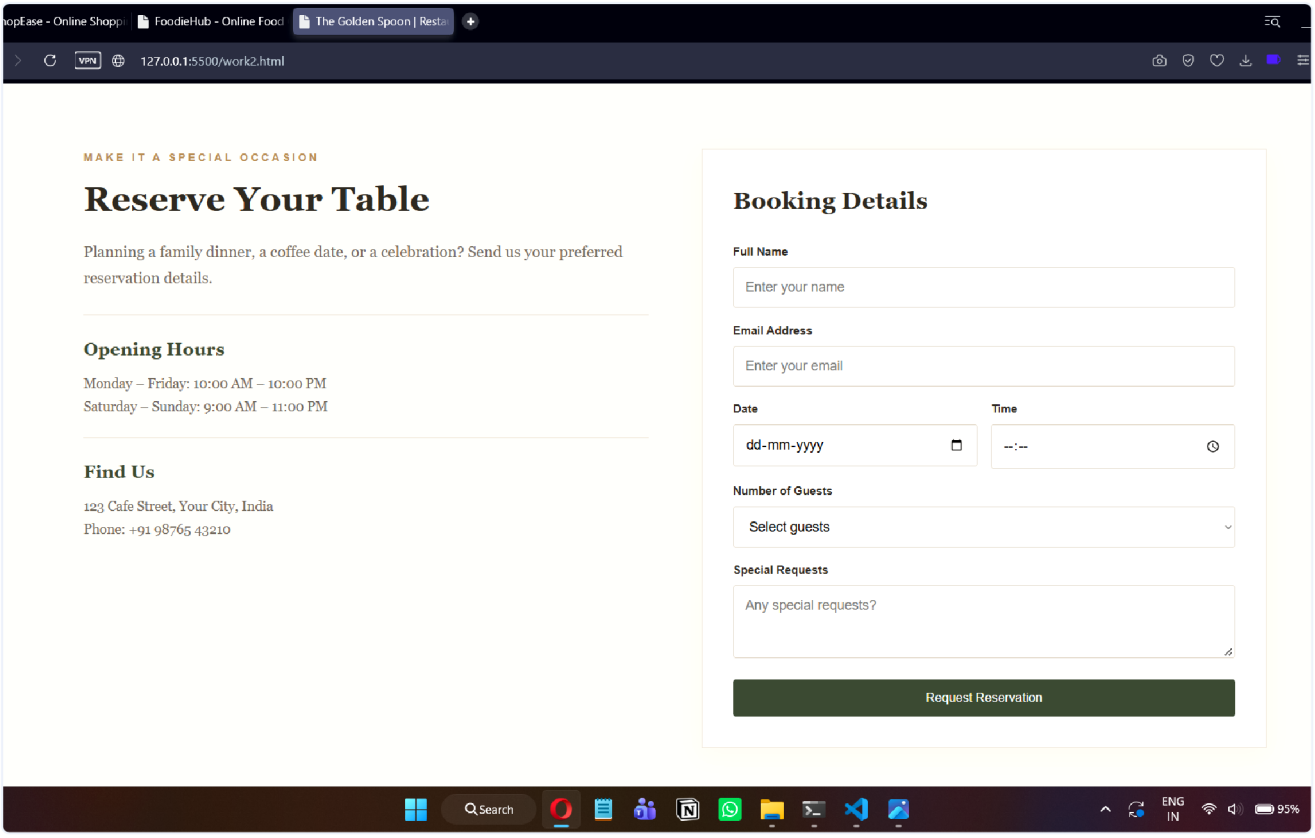

EXHIBIT 1.7 — Reservation Form Input Fields, Guest Count Selector & Location Information

8. Brand Footer & Technical Summary

The website concludes with a dark olive footer reaffirming the brand identity: *"Good food, warm hearts, unforgettable moments."*

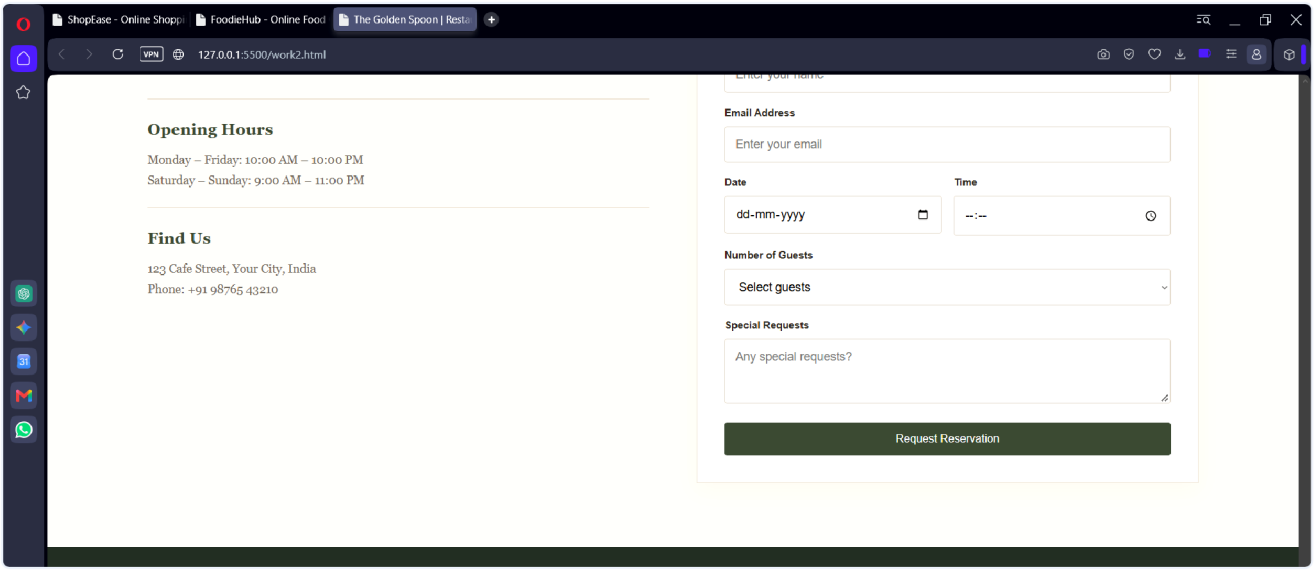

EXHIBIT 1.8 — Dark Olive Website Footer with Copyright Notice & Brand Motto

Semantic HTML5 Structure

Clean semantic tags (`<header>`, `<section>`, `<nav>`, `<footer>`) ensure high accessibility and smooth page flow.

Custom CSS Design System

Utilizes warm cream (#FDFBF7), olive green (#3F4E38), and serif typography to create an elegant fine-dining experience.
